

The breakeven charts indicate levels of income that would prohibit payment of SSI benefits in deeming situations. These charts are informational only. In any given situation, a computation should be done taking into consideration other variables such as: impairment related work expenses; blind work expenses; plans for achieving self-support; and the fact that assistance based on need, and any income used to compute such assistance, is not deemable.

INDIVIDUAL FBR \$674
COUPLE FBR \$1,011
INELIGIBLE CHILD ALLOCATION \$337

NOTE: All income rates assume an FLA of A or C, that children have no income, and that there is only one eligible child in the household. This chart does not apply when there is a combination of earned and unearned income. If there are more than 6 ineligible children, add \$337.00 for each additional ineligible child.

**SHADED COLUMN INDICATES WHEN REDUCTION BEGINS AND UNSHADED COLUMN INDICATES WHEN ELIGIBILITY CEASES.
